

Bibliography up to 1977 on research with the IVT phytotron*

Compiled by L. Smeets

Publications by IVT staff members

- Andeweg, J. M. & A. van Kooten, 1957. The practical importance of an identification of garden pea varieties in the seedling stage. *Euphytica* 6: 237-241.
- Baër, J. & Y. O. Kho, 1971. An investigation into the cause of sterility in double-flowered freesia varieties and the possibility of restoring fertility. *Euphytica* 20: 493-497.
- Banga, O. & J. L. van Bennekom, 1962. Breeding radish for winter production under glass. Phytotron investigations for the development of a selection method. *Euphytica* 11: 311-326.
- Banga, O. & J. W. de Bruyn, 1968. Effect of temperature on the balance between protein synthesis and carotenogenesis in the roots of carrot. *Euphytica* 17: 168-172.
- Banga, O. & L. Smeets, 1956. Some effects of the photoperiod on growth and pithiness of radishes. *Euphytica* 5: 196-204.
- Banga, O., J. W. de Bruyn & L. Smeets, 1955. Selection of carrots for carotene content. II. Sub-normal content at low temperature. *Euphytica* 4: 183-188.
- Banga, O., J. W. de Bruyn, J. L. van Bennekom & H. A. van Keulen, 1958. Selection of carrots for carotene content. IV. Reduction in the gas exchange of the soil. *Euphytica* 7: 247-256.
- Banga, O., J. W. de Bruyn, J. L. van Bennekom & H. A. van Keulen, 1963. Selection of carrots for carotene content. V. The effect of the soil moisture content. *Euphytica* 12: 137-146.
- Braak, J. P., 1955. Effect of some environmental factors on the appearance of 'June Yellows' in strawberries and its significance for the development of a test method. *Euphytica* 4: 189-196.
- Braak, J. P., 1957. Effects of some internal and external factors on the embryo and seedling development of the cherry. *Rep. 14th int. hort. Congr.* (Scheveningen, 1955) I: 845-852.
- Braak, J. P., 1962. Influence of growth conditions on fruit and embryo development in apple and cherry. In: Environmental factors in the distribution of fruit varieties. *Meded. Inst. Vered. TuinbGewassen Wageningen* 182: 57-65.
- Braak, J. P., 1968. Some causes of poor fruit set in Jucunda strawberries. *Euphytica* 17: 311-318.
- Braak, J. P., 1972. Freesiaplanten uit bloemstengels. Versnelde vegetatieve vermeerdering. *Vakbl. Bloemisterij* 27 (35) 39.

* Articles in extension journals are mentioned only if they appeared before articles on the same subject in scientific journals.

- Braak, J. P. & E. Kooistra, 1975. A successful cross between *Phaseolus vulgaris* L. and *Phaseolus ritensis* Jones with the aid of embryo culture. *Euphytica* 24: 669-679.
- Drijfhout, E., 1970. Influence of temperature on string formation of beans (*Phaseolus vulgaris*). *Euphytica* 19: 145-151.
- Drijfhout, E. & A. van Steenberg, 1969. Het kweken van stamslabonen zonder draad. *Zaadbelangen* 23: 505-507.
- Eenink, A. H., 1973. Overwintering van geselecteerde andijvieplanten (*Cichorium endivia* L.). *Zaadbelangen* 27: 321-322.
- Eenink, A. H., 1974. Matromorphy in *Brassica oleracea* L. II. Differences in parthenogenetic ability and parthenogenesis inducing ability. *Euphytica* 23: 435-445.
- Eenink, A. H., 1974. Matromorphy in *Brassica oleracea* L. III. The influence of temperature, delayed prickle pollination and growth regulators on the number of matromorphic seeds formed. *Euphytica* 23: 711-718.
- Eenink, A. H., 1974. Matromorphy in *Brassica oleracea* L. IV. Formation of homzygous and heterozygous diploid products of gametogenesis and qualitative genetical research on matromorphic plants. *Euphytica* 23: 719-724.
- Eenink, A. H., 1975. Matromorphy in *Brassica oleracea* L. VI. Research on ovules, embryos and endosperms after prickle pollination. *Euphytica* 24: 33-43.
- Eenink, A. H., 1975. Matromorphy in *Brassica oleracea* L. VII. Research on products of microsporogenesis and gametogenesis from prickle pollinated plants. *Euphytica* 24: 45-52.
- Eenink, A. H., 1977. Influence of temperature on seed dormancy in lettuce. *Scientia Hort.* 6: 1-13.
- Eenink, A. H. & Sheila Loupias, 1976. Manlijke steriliteit bij sla door gibberella-zuurbespuiting. *Zaadbelangen* 30: 300-302.
- Elzenga, G., L. Smeets & J. W. de Bruyn, 1956. Influence of the temperature on growth and alkaloid content of first-year *Atropa belladonna* L. *Euphytica* 5: 276-280.
